PROFILE SUMMARY

Data Science undergraduate with expertise in Machine Learning, Deep Learning, Natural Language Processing, and Generative AI. Experienced in developing AI-powered applications using Python, FastAPI, Streamlit, and LLM technologies. Strong foundation in data analytics, predictive modeling, model evaluation, and data visualization. Passionate about building scalable AI solutions that solve real-world business challenge.

EDUCATION

Univeristy of Mumbai

B.E. with specialization in DATA SCIENCE, CGPA: 9.29

HSC(XII) - 70.17%,

SCC(X)- 90.40%

Mumbai, India

October 2022 - May 2026

July 2021 - July 2022

July 2019 - July 2020

SKILLS

- **Languages:** Python, SQL
- **Data Science Machine Learning:** Machine Learning, Deep Learning, NLP, Predictive Modeling, Feature Engineering, Model Evaluation, Exploratory Data Analysis (EDA).
- **Generative AI:** Large Language Models (LLMs) AI Agents, Agentic AI, Prompt Engineering, RAG
- **Frameworks Tools:** Pandas, NumPy, Matplotlib, Streamlit, FastAPI, Power BI, EasyOCR, Whisper
- **Version Control:** Git, GitHub

PROJECTS

Multilingual Translation System *Python, Streamlit, FastAPI*

Jan 2026 - April 2026

- Built a real-time translation platform supporting text, image, audio, and chat translation across 13 languages. Integrated Whisper and EasyOCR for speech and image text processing. Developed scalable APIs using FastAPI and an interactive user interface with Streamlit.

AI-Driven Smart Logistics Platform *HTML, CSS, ML, AI Agent*

Sep 2025 - Dec 2025

- Designed an AI-driven logistics auction platform where customers post shipment details, ML predicts vehicle type and price, and verified transporters bid competitively. Implemented an end-to-end workflow covering bidding, smart selection, partial payments (20-80) percent, load delivery, and feedback to ensure secure and transparent shipment completion.

Multiclass Neurodegenerative Disease Classification System *CNN, Streamlit, EDA*

Feb 2025 - April 2025

- Designed a system to detect the Disease. Parkinson's Disease affects mobility and speech in older adults, while Alzheimer's impairs memory and cognition. using the MRI system give Early screening, Supporting clinical decision-making, experiments in ML-based healthcare analytics.

"Autopilot" Social Media Manager *AI-agents, HTML, CSS*

May 2026 - june 2026

- Developed a multi-agent AI automation pipeline that analyzes daily AI news, generates LinkedIn posts, performs quality checks, and schedules content automatically.

ACHIEVEMENTS

- **Hackathons:** Finalist in **Smart India Hackathon 2025** at VTU
- **Reasearch Paper Publish .**
- **2nd rank in INNOSPARK (Data Science)**
